Early Childhood Education (Non Certification) Curriculum Guide

Degree: Bachelor of Science or Arts in Education

Major: Elementary Education

Concentration: Early Childhood General and Special Education

Early Childhood Education- Non Certification Track

This concentration enables students to qualify for positions in Early Childhood Education (ECE) as lead teachers in infant/toddler and preschool educational settings. The program is designed for persons interested in working with young children birth-to-five years old and their families. The focus of the curriculum is on the growth and development of the young child including children who have developmental delays or disabilities, and the influence of family and society dynamics on the child's development and learning. The ECE curriculum includes the theories, principles, development, and evaluation of relationship-based learning and teaching in early childhood intervention and education settings; as well as assessment and teaching strategies, materials and equipment for physical, social, language/communication, emotional, and intellectual development for all young children.

College of Education Level 1: Completing University & College Requirements

Your admission to the College of Education begins with Level 1, which is the level for newly admitted freshmen, transfer students, and existing WSU students that change their major to Early Childhood Education (Non Certification). This is a time to meet the requirements for the next level of admission by completing Level 2 admission requirements.

College of Education Level 2: The Professional Education Sequence

Level 2 is the time when you transition from student to professional. In Level 2 you will complete coursework in our Professional Education Sequence to learn how to teach, to differentiate instruction, to assess student learning and to deepen your knowledge of the profession.

Admission to Early Childhood Education (Non Certification)

Students are directly admitted to Level 1 of this program from high school or another institution of higher learning by completing an admission application to the University. If already admitted to Wayne State University in a different major, please go to <https://go.wayne.edu/apply-coeug> to declare Early Childhood Education (Non Certification).

Advising

Upon admission to WSU, students should meet with Shawntae Harris in the Division of Academic Services to discuss the degree requirements. Please schedule an appointment online with Shawntae Harris using Advising Works: <https://www.advisingworks.wayne.edu/>. The Division of Academic Services also has Open Advising each Tuesday from 9:00 am to 4:00 pm. in Room 489, College of Education Building. Students are seen on a first-come, first-served basis during Open Advising (i.e. no appointments are made on Tuesday).

Important Restrictions

- **No grade below a "C" may be used to meet College Requirements or courses in the major. Note: All students must receive a "C" or higher in Basic and Intermediate Composition if these requirements are completed or transferred in Fall 2008 or thereafter. A grade of "C-" is not acceptable.**
- **Not more than 64 semester hours from a two-year school or schools will apply toward graduation.**

Michigan Transfer Agreement (MTA)

Students transferring to WSU with MTA in fall 2018 and beyond will have satisfied **all** of Wayne State General Education requirements. All college, program, major and minor requirements must also be completed (at least 120 credits) for students who fulfill the MTA requirements.

Your community college will provide detailed information, including approved courses, for completing the MTA. We recommend that you review our transfer plans and consult your community college advisor about fulfilling MTA requirements and how to request an MTA transcript evaluation.

University Group Requirements (Inquiry Courses)

Courses may only be used to satisfy one inquiry area even though some courses appear in several categories.

Where a choice among courses is possible to meet Competency Requirements, Group Requirements, and College Requirements, the College of Education recommends those courses that would also fulfill a requirement for a major or minor in that subject. Group requirements for Natural Science Inquiry, Global Learning Inquiry, and Civic Literacy Inquiry are not found on this page are fulfilled by College Requirements listed on page 4.

Many Inquiry requirements can be met alternatively by items A and B on page 2.
